VISION / MISSION

To promote excellence in the engineering profession for the benefit of municipalities and their communities.

OVERVIEW

The Institute of Municipal Engineering of Southern Africa (IMESA) promotes the interests of municipal engineers and their profession, and creates a platform for the exchange of ideas and viewpoints on all aspects of municipal engineering with the aim of expanding the knowledge and best practices in all Local Government municipalities.

Since 1961 IMESA has played a significant role in municipal engineering, sharing knowledge and acting as a catalyst in developing new initiatives. Municipalities are key role-players in identifying needs, prioritising funding and implementing integrated development planning for community-based programmes. The Institute also advises Councils on municipal engineering matters and serves the broader community through representation on a number of National bodies, where it provides input from the municipal engineer's perspective.

IMESA HERALDRY AND MOTTO

The IMESA coat of arms was designed by Alan Woodrow and was registered with the South African Bureau of Heraldry in 1972.
